

September 19, 2020

Dear Family & Friends:

Our Covid-19 adventure continues! You have probably read that CMS has offered a new set of "Visitation" Guidance, hoping to balance Resident safety and family contact needs. The Connecticut DPH is in the process of determining local application. Then, our own Clinical and Activities staff will have to find ways to apply them. You see, it will still involve testing, scheduling, supervising for the Residents in the SNF Unit. We are also trying to organize indoor visit areas as the weather turns cooler. We will let you know the details as soon as they are completed.

In the meantime, if you have a special need, please do not hesitate to contact Jackie Natale (Infection Control Nurse) or the Little Sister on the Residents' Unit. They will try to help you.

Staff testing is now being done in a "surveillance" mode since all results have remained Negative.

Our Social Worker, Ashleigh gave birth at the end of August, to a little boy named Ashton. While she is absent, Jennifer Regish is filling in nicely. There has been some return to communal Dining and group Activities, always respecting social distancing and wearing masks. Our resident crafters have fashioned some very classy masks!

Our 30<sup>th</sup> annual Golf Outing seemed to go well last week. It was a beautiful day and there were over 100 golfers.

We truly miss seeing you and hope that you are finding Covid-coping strategies in your own life. Thanks for your continued support.

Gratefully,  
Mother Genevieve & Little Sisters
