

October 10, 2020

Dear Family & Friends of St Joseph Residence,

I am afraid to say that I do not come with all good news in this update. Several staff members are dealing with Covid issues: two have had exposure and are isolating and one actually has symptoms and a positive diagnosis.

At this moment, none of the Residents are showing symptoms but all are accepting quarantine until testing.

We cannot have visitors now until we go fourteen days with no positive tests. All Residents and staff will be tested weekly until we reach that goal.

In general, we have to go back to the virtual and window visits. If this poses a problem, please discuss it with the Little Sister of your Resident's Unit: Sr. Regina (2 SNF), Sr. Mary Alexandra (3 RCF) and Sr. Joanna (4 RCF).

Diane Falkowski (Activities) will do all she can to facilitate family interactions.

I know this situation is disappointing for everyone. We all want to keep the residents safe and content. Thank you for your understanding and support. Please stay healthy!

Always grateful,

Sr. Genevieve Regina & Little Sisters
